Volume 1, Issue 1  
January 2008

*Barriers of Peace, Keepers of Faith, Guardians of Hope – 2008 is the year of Hope*

*In 2008 you have entered into a nine-year cycle in which the number 9 is significant for change and transformation. The Year of HOPE (Heaven's Open Promise Eternally) is inevitable; only your self employed misery can cause you to miss the richness that awaits you. You can continue to dance in the veil of illusion or allow your ascension to fuel your life in which your enlightenment is assured. There is much excitement in 2008 as the number 1 calls consciousness to unit. As you begin this year, HOPE will not be the dominant energy, but if you use courage and learn to conquer your fears, this will mean the difference between change happening to you or with you. You are the Barriers of Peace, Keepers of Faith, and Guardians of Hope and as such you must be willing to remove the masks that shield you from recognition of your true selves. On December 27, 2007 humanity stepped onto the threshold of Hope and sipped the chalice of peace, joining forces with 3 universes which are guiding planet earth through its ascension and into the heart of the 7th Golden Age. The objective for humanity in this life time is to transcend thought and become living embodiments of love.*

*3 Universes guiding Plant Earth are governed within the Brotherhoods of Light; there are 70 Brotherhoods the primary 3 are directed by Lord Michael – 7 seals (bio-physical), Lord Enoch – 64 keys (astrophysical), and Lord Melchizadek - energy (spiritual connection) includes the Great White Brotherhood and the 144 Ascended Masters under Melchizadek.*

- 1. Father Universe (6<sup>th</sup> Kingdom – governing nature laws, and senses). Multi-universal time cell realms where nucleogenesis in stellar populations directly connects with programs of Son Universes.*
- 2. Son Universe= Metatron, Melchizadek and Maitreya are in charge of reeducation of the worlds (Adam Kadom) – human kingdom is the 9<sup>th</sup> kingdom governed by two types, mind and instinct. Reside in the ethereal elemental, the upper half of the 4<sup>th</sup> dimension. The universe with consists of programs of creation and evolution, spanning different life combinations of intelligence from the gross material to the pure Light.*
- 3. Shekinah Universe – the inner universe created for the transformation of the basic building blocks of intelligence out of the Sea of the Eternal to go in to the presence of the Father. Skekinah means the presence of God, the breath and vitality of God. In other words our Essence.*

*The arch of light over the third eye controls all the basic neuron activity of the pineal gland. This Arch of Light comes in through the third eye because the third eye pineal gland area controls all of the light synthesis connected with the cerebral cortex. Man knows from biochemical research that the cerebral cortex, when injected with an enzyme of serotonin, will move slightly and rotate slowly, releasing tremendous phosphene patterns. Medical research has shown that rise of enzyme activities after the onset of darkness. This can be accounted for by a small increase in the concentrate of neurotransmitters at a time when the receptors are maximally sensitive. Thus, a unique amplification and dampening system producing concurrent changes in receptor sensitivity and signal intensity can be shown, whereby small changes in the catecholamine concentration at the receptor sites in the brain produce 30 to 40 fold changes in enzyme activity.*

*Your universe is going through a Spiritual Renaissance embarking upon an adventure of historic progress and uncharted territory. By beginning to tune and balance your inner eye unseen wisdom will unveil to you the mysteries of the cosmos where you assume your proper place in the cosmos – by birthright. What that place is, each soul will discover on its own. By looking to the stars and returning to nature the spirit of cosmic consciousness will greet you on your path as you realize the one-ness of all things. The revealing of the masks is our next topic where ‘truth’ faces the face (yours) and the sheathing that has kept you from your own truth will finally fall away, as you allow.*

*We walk with you, talk with you and will show you the way in every step, every breath and every turn.*

*Hiya Goozo Dolee (may peace flow),  
The Council of Nine*
