**Discourse:** SEVEN SENSORY BEINGS ~ USING YOUR GOLDEN COMPASS

*For M.O.M. web page*

*If you've been feeling out of sorts and topsy turvy then Saturn's vibration is certainly working. Saturn rules the past, the "lord of karma" allowing emotional transformation to restructure new neuropaths for upgraded memories. Your current memories may be painful, your feelings are running a muck and you wish things could be the 'way they were?' Are you ready to "get over it?" The moon has become a dancer at the festival of love and humanity shadows are melting away, yet you're trying to hang on to what you know. Your masks are devoted to your sleeping state of mind and the waning of the moon is the culprit that will enable truth to become you.*

*The fire and shadow embraced each other fully on February 20, 2008 (the full Lunar Eclipse) and gave birth to "illuminated" thought patterns which will enable you to upgrade and reboot your body, your spirit and your evolved cranial capacity awakening the Seven Sensory Beings you are. Fully baptized through the heart of the Lion (Leo) and the Lord of the Rings (Saturn) your Golden compass has been returned to you. Navigation of your compass is up to you! The Sirius connection is upon you and the magical child is preparing to rebirth. Myth, magic and cosmic laws are coming into alignment within your cellular structure where the golden lay lines hold the keys to liberation.*

*The original planners of Earth were members of the family of Light. The family of Light created the information center where galaxies could contribute genetic codes which could be stored through frequencies and thorough the genetic process (DNA). One of the 12 helixes that make up your DNA frequency come from "the ones with no names" and over time have been known as the Clay People, Rainbow People or Star People. "Some" of us have been largely governed by the fallen chemistry of 3<sup>rd</sup> dimension simply interested in the things of flesh and the physical shell of life devoid of the spirit of the Divine and the Wisdom of His Kingdom. We, like you, have the power to evolve and humanity holds the key as you awaken to your full potential to align a small majority of our brethren who have lived with you in the shadows back to their illuminated selves.*

*The topic tonight is understanding your Seven Sensory factors or vibrational frequency. There is much we can share about this topic, but to get to the point, it comes down to the atomic level. Your physical, emotional, mental and spiritual bodies are made up of a multitude of atoms. Each atom consists of a central core of fire around which a series of electrons move in ordered precision just as the planets move around the sun. The electrons spin in their orbit just as Earth spins on her axis. At this atomic level, vibratory frequency is the rate at which electrons spin in their procession around the atom and the speed at which they turn in their own orbits. The combined rate at which all of your electrons spin determines the rate of vibration of your electronic vehicle. The human body frequency resonates from 62-72 megahertz; to sustain your health you need to sustain your frequency at these levels which feeds your cells, organs and entire endocrine system. As the rate of vibration lowers, a person becomes more susceptible to many invaders that weaken your immune system and the body becomes more vulnerable to shadowed energies as the cycle of poor health becomes self-perpetuating. Again, this lower frequency AFFECTS your physical, emotional, mental and spiritual bodies.*

*There is no sound without vibration; anything that has mass can vibrate this includes anything from your planet to the smallest particles. The vibration will also move away from the vibrating object (source) and through whatever medium it is in, whether that is air, any other gas or liquid. All of these effects have cause and effect on your body by penetrating through the emotional blockages harbored within your human vortex or body.*

*Hu is the call to the Divine (God) and Man is the form which you've chosen. The Seven Sacred Seals are governed by sound which creates a balanced movement of expansion and contraction, a standing wave through the nervous system and auric field. This movement helps to clear emotional blockages stored in the connective tissue and produces deep relaxation enabling the body to regenerate and the energy system to balance and realign itself.*

*The Seven Sacred Seals represent the seven chakra's (energy centers) as energy particles dancing in unison that are awaiting your awakening for acceleration of your soul's evolution and return into holy union. When the seven seals are perfectly balanced, the universal connective vibration aligns the spiritual to the physical to receive a new encoding of Light and humanities organic consciousness revives itself into your natural alignment of union, self-realization, wholeness, remembrance, truth, wisdom, and becoming once again All Knowing Illuminated Beings of Cosmic Consciousness. This level of Being has nothing to do with 'personal ego' or thought as you know it. The Cosmic Laws, Cosmic Thought (Divinity) and Cosmic Truth align your Golden Compass and you return in the One, for the One and by the One.*

*Through sound the Seal, Chakra, Endocrine System and corresponding elements are reverberating within each particle allowing for greater healing (letting go of fear). The human condition is now awakening to its true nature and choosing to come into the fullness of self expression as the Divine Beings (God's) you are. The progression of initiating the seven seals will accelerate you into a deeper spiritualization process. Do realize, however, that this is truly a process which takes one through many levels and many aspects of being and in recurring, rhythmic patterns of purification. Each individual's experience will be unique and based on the soul's purpose of incarnating, the wisdom to be gained and any remaining karma, emotional, mental, physical and spiritual patterns that need to be resolved and transmuted. It is also in accordance with one's level of surrender, acceptance and readiness to accelerate forward into higher consciousness and Christed state of love and union.*

*When you begin to awaken in your own time and readiness, you'll know because you will no longer be affiliated with "what can I get," "rather, how can I serve." These opened seals have nothing to do with the personal (body) ego level and everything to do with Cosmic law, cosmic thought and cosmic truth. Humanity in the density of your bodies cannot understand this concept because you're in your intellect too much and have been groomed within the world of rationalization of what happens to you is based on a reason; "everything happens for a reason." The time of reason was birthed to give way to science, medicine, and your industrial and electronic age for advancement of the human condition in this time, space continuum. The imbalance of the seals have served a monumental purpose in providing great expansive experiences of understanding your human nature endowed with free will.*

*The topic will continue in our next M.O.M discourse, for now, we'll share with you the Seal of Union and we'll break it down into four categories they are: 1) Seal, 2) Chakra, 3) Endocrine System and 4) the Corresponding Elements. We will write a 1 page Discourse on each Seal, it is*

*vital to understand that SOUND or FREQUENCY of the Seal is the key to opening it. Another thing to take note is that you can attain the frequency, but you cannot sustain it. The reason for that is the top of one mountain is the bottom of the next, so as liken to the universe it is always expanding and contracting on itself.*

Seven Sensory Beings ~ using your Golden Compass  
(Navigation is up to you as you awaken to truth)

Believe, Allow, Become, You: using your Golden Compass; dissolving into your Cosmic Journey; “Humanity of the Soul Incarnation.” This is a discourse in how to work in union with the cosmic force that is YOU; the SOUL is your own divinity, you can never dissolve its boundaries it is set up for your homecoming (returning to love and light).  
Become One with the Whole of Light Creation.

## Initiating the Seven Seals

1<sup>st</sup> Seal...

### UNION

*The condition for the first seal is separation and the imprint from Divine Creator is UNION.*

*Remember beloved brethren you are light, you are love, you are all children of the Divine (God) and that will never change. As your light bodies were birthed into physicality you descended from the heavenly realms of pure light into a density of third dimension and seeming separation into a world of illusion. This aspect alone could have something to do with the initial doubt that occurred thereby questioning your true nature. There has remained within most of you a deep longing to return to your source or to go home, but lack of understanding and truth has left you frustrated and angry with your life choices and evolutionary journey. You've been in search of self, perhaps never really understanding or feeling worthy to reconnect with Mother, Father and the Oneness of whence you came. You've spent years and life times trying to understand the karmic wheel of life and how it all began and why you would choose to separate in the first place. The meaning of life is Love and the journey in simplicity has been a return to love. Because you failed to understand the true meaning of love, you looked for that feeling outside of you and became possessed with power, prestige and personal acquisitions instead of soulful truths. This seal and chakra project this loss and your seeming separation from your true nature as Soulful beings of love and light. Your belief systems and divine energies will come into alignment as you begin to awaken to your truth and release your worldly understandings and projections by re-remembering who you truly are.*

*Separation is an illusion but it has served its purpose by encouraging you to venture out on your individual soul journeys experiencing many aspects of a free willed life while under a veil of forgetfulness. Now is a time of awakening to true self, however you are aware that there are many who will not choose to awaken at this time and will continue to dance in the veil of illusion and continuing the journey of separation. You are not separate and never were, so as others dance with their illusion we will remember the truth for them until they can remember the truth for themselves. The truth is that as you awaken you are remembering who you truly are, you are soulful beings having human experiences and you are coming into UNION, thereby returning to your original Source, and to your Oneness.*

*As this seal opens, it reconnects your vibration of true love, true spirit, and wholeness, to a state of belonging and home coming. Self regenerates into a state of interconnectivity, and one with all dimensional states of consciousness and you return to UNION where enlightened consciousness firmly seeds you in each now moment of personal truth.*

*The Sound Frequency is 'C' and as you hold this sound in your body allowing the frequency to penetrate deeply into your cellular membrane the particles within the cell will begin to expand and contract until it initiates the color Red and you will feel the penetration within your tailbone and spine. Because you are all uniquely you, each individual will have a different experience. It is then you'll realize you achieved the frequency in TRUTH that is undeniable, once open the cells 'remember' the frequency and will align with vibrations of 'C' ongoing. Nature will meet you because the Frequency realigns you with Earth and the entire elemental kingdom through magnetic resonance, and you return to the Mother!*
