INITIATING YOUR INTERNAL MULTI-SENSORY SELF ~ USING YOUR GOLDEN COMPASS

PART IV: ARMAGEDDON THE WAR WITHIN ~ PERCEPTION IS SEEING WITH WISDOMS EYES

If you think you've found the Truth, you may want to pause a moment, because truth is not a simple fact. It is laden with fantasy and emotion. More than fantasy, truth has many layers of implications in psychological complexities. Insanity and love are sacred principles that titer on the same frailty of balance. Two key factors: 1) truth cannot be learned only recognized and 2) darkness is the alchemical truth of consciousness.

The War within is an Awakening to your Soulful Self, sometimes referred to as your "I Am" presence. The final battle or war as you say is the war of separation, the empty space within all humanity that seeks to clearly fill this space. Many cosmic shifts have taken place this year and a new energy has been birthed, it's called catalyst, certainly not a new word, but a cosmic vortex of energies that spins your human vibration into a greater awareness of awakening. You're awakening to a renewed understanding of a 'global renaissance' where it is promised that the children of light can have it all. Knowledge is not the same as wisdom; knowledge is theory whereas wisdom is doing it (your actual experience). The Journey for Humanity is to become unified. The Great Deceiver; is your brain where conditioned mind patterns hold you hostage and in a state of illusion. The veil is awaiting your allowance to be lifted.

The prophesy of union is coming to fruition which is heaven on earth; heaven being the soul which is to become illuminated (enlightenment) which is part of the design of the 'original' human angel. The body is the holy chalice the vehicle which houses your divinity. Your Divinity is your mind (do not mistake it for your brain thoughts or conditioned mind patterns). The mind and the soul are one, the brain and the bodies are one. This is what is known as the trinity. Your lives were meant to be likened to 'sunlight on water' meaning your lives are meant to be that fluid. It is your resistance that holds you all hostages due to your attachments to fear based reality; resistance persists, allowance will set you free. You have come to Represent He Who Sent You; say to yourselves I Am God Also. This is the Mother's (Gaia) wish and as you do you the Prophecy of Union will be unveiled; the Divine Commission of the Angelic Human Race. The sacred mission for whom you were originally seeded on earth is to correct the fire within your power centers which are also within your planetary earth shields, which were damaged during the "Fall from Tara" 550 million years ago. The Divine Commission is called the Christos Realignment Mission. Since this timeline, you've all been captive within the symbolism of the 666 (veil of illusion).

Between now and 2017, you are at a crossroads in the evolution of your race, and you're going to need to understand a great deal more about how your minds, bodies, and healing work, and the greater context that your bodies exist within. This will enable you to better maneuver yourselves through the energy changes that have begun to take place, and that will continue to take place during the next 9 years. There are 'ley lines,' that are activating now, that haven't activated in over 200,000 years. There will be frequencies coming in through the solar light spectrum that are going to activate your DNA spontaneously, causing changes in the planetary particle/matter base, as well as the bio-spiritual particle/matter base of the preeminent living forms that share an intimate and inseparable connection with the planet. Your bodies are sacred temples and are

inextricably linked to the planetary grids. You are all part of the “Rainbow, Crystal, Indigo and Golden Children which are now referred to as the Rainbow Roundtables.” The Rainbow Roundtables are groups of Angelic Humans assembled in the 4 Evolutionary Rounds who are commissioned to run the “rainbow ray” or “Khunday” the Primal Sound Current from the 15-dimensional Time Matrix, into Earths Planetary shields during Stellar Activations Cycles (SAC). The SAC’s enables the planet to retain its natural electromagnetic balances to avert pole shift and restores the organic planetary Christos alignment.

Since the 9558BC Atlantian Flood, knowledge of the Rainbow Roundtables has been intentionally hidden from the Angelic Human races of contemporary Earth, by the Human Illuminati and Fallen Angelic races that desire to create pole shifts during the long-anticipated 2000-2017 SAC. Your activation of your 12 senses is critical to your ascension and future evolution for your beautiful planet.

The Scalar waves were activated by Gaia (your earth mother) during the 7 years of disruption and are being initiated by your Star Brethren from the Pleiades and Orion by the 777. The Pleiades and Orion’s give the mathematics for every chemical sacrifice required in life from Genesis to Revelation. They show the higher lights can modulate the physical universe which is controlled by the force fields of 666 so that the pure thoughts of the Masters working with the 777 principle stars on the cluster of the Pleiades have the power to materialize a new heaven and new earth (within your physical bodies through enlightenment). What needs to happen is the lower biological creation need to come together with the Christ Consciousness connecting the 888 with the Jesus Germatria liberated body. When you engage in the natural laws (solar energy) the 12 senses are activated. You have 12 faculties within your body, seven (7) on the front of the head called the crown of glory. There are five (5) physical senses (your sense buds are under the skull bone in the soft part of the membrane) which are on the back part of the head by the neck (they’re referred to as the natural laws); the power of your mind and body stimulates your genius. Therefore, when you reach Wisdom within the 6th Golden Chamber, the veil of illusion falls away.

The Golden Compass Discourse continues with understanding of the 6th and 7th Chambers which are **WISDOM** and **ALL KNOWING OR ILLUMINATION**, they are specifically in alignment with the Heart and the Throat which affects your Thymus and Thyroid glands. The internal chambers are in direct connection to your returning to ‘unconditional love’ – it is all about remembering your **soulfulness** and your inheritance as a divine being of love and light.

This topic concludes our M.O.M discourse on the last two chambers of the Golden Compass. The Chambers of **Wisdom** and **Illumination** are broken down into four categories they are: 1) Chamber, 2) Chakra, 3) Endocrine System and 4) the Corresponding Elements. We will write a 1 page Discourse on each Chamber, it is vital to understand that SOUND or FREQUENCY of the Seal is the key to opening it. Another thing to take note is that you can attain the frequency, but you cannot sustain it. The reason for that is the top of one mountain is the bottom of the next, so as liken to the universe it is always expanding and contracting on itself.

Believe, Allow, Become You: by initiating and using your Golden Compass; you are fulfilling the Prophecy of Union. This is a discourse in how to awaken your Soul; the SOUL is your own divinity, you can never dissolve its boundaries, it is set up for your homecoming (returning to love and light).

Initiating the Seven Sacred Chambers

6th Chamber...

WISDOM

The condition for the sixth chamber is salvation and the imprint from Prime Source is Wisdom.

Throughout your long journey veiled in the human form there has always existed an inner knowing that someday there would be a release. That someday, there would be an ultimate freedom from the chains of limitation. The salvation that is being addressed here is one realizing the full potential of the SOUL and reaching a consciousness of the wise one, which is you, awakened to your soulful truth. Salvation is the release of all illusion that keeps one in the density of slumber and ranked in the third dimension and density of mass consciousness. The full integration of all seven chambers IS WISDOM. Wisdom is the acceptance in your heart of four simple words. I AM GOD ALSO. That is salvation and one does not have to follow any particular religion, faith, belief system or the spiritual path of any other in order to achieve this state of eternal freedom from the human condition. You never needed to be saved only reminded of who you truly are.

Salvation has always been accessible to you; it is the acceptance of yourself on your journey, wading in the truth of your true nature and divine purpose in life. As the sixth chamber is initiated, the old energies of salvation are transmuted into true knowingness and realizing you're the only one that can save yourself. *Wisdom* basically means saving self from a dense vibration of unknowingness. This newly realized wisdom helps you to understand that you are God and God is you, and that you can create all that you desire as those desires are aligned with an to divine intent. The initiation of this chamber is the release of all that has kept self veiled in separation and where soul memory is restored and one becomes the all seeing eye of God.

With the release of all illusions, the initiation of this chamber effects the integration of all other chambers. When this chamber is initiated the element is thought, the symbol is the Star of David or fine turned awareness awakened in *union of self realized in wholeness while remembering the truth of the Wise One.*

Initiating the Seven Sacred Chambers

7th Chamber...

ALL KNOWING OR ILLUMINATION

The conditioned of the seventh chamber is Self I AM and the imprint from Prime Source is All Knowingness or Illumination.

The seventh chamber is also the energy of the self, but of the unfolding of the true Self I AM, rather than self who am I. This chamber is symbolic of the butterfly leaving the cocoon. The self no longer questions who it is and it does not need to question what is going on around it, because it has a knowingness and new understanding at a very profound new level. This self then realized that it is I AM Love fulfilled within the organism called humanity. You are fully awakened and become a Living Embodiment of Love.

The self behind the seventh chamber understands things through the divine heart not through the human intelligence. The energy of this life force is combined with the Holy Spirit and self finds peace on the wings of self-realized knowing exactly who they are now and that the initial slumber of the quest has awakened self to continued new beginnings.

With all the blessings from above and below, from the light and the shadow the seventh chamber is initiated and you allow yourself to express as I AM GOD. You step into each new moment, each breath, and every day as God and receive guidance and wisdom from the realms of illumined truth. The embodiment of the past has ascended and transitioned into other forms as

you continue to evolve as living embodiments of love and light, living Gods and Goddesses, sharing, teaching and showing others the way as full examples of ascended consciousness.

Now the original vision of heave on earth becomes a reality, where your starry over self (Light) integrates with the density of matter or your physical beings thereby merging with the unified matrix into one embodiment of love. You become Christed Light in holy *union of self realized in wholeness* with glorious *remembrance of truth and wisdom* and sharing your *All Knowingness* with the re-newed world.

This self is pure self-lessness!
