AWAKENING THE DUST WORLD - THE COVENANT OF LIGHT

“The Council of 9 governs your local universe; the Council of 12 governs programs for surrounding universes and the council of 144 oversees the spiritual hierarchies. You are experiencing the 7th Golden Age and therefore are awakening to your full potential as the Embodiment of the Covenant of Light at the 7th Ray. The sperm colors of your local universe manifest out of the Dust World creation - structures of many bodies robed in multi-colored beams of light. For this reason, the “Adamic” seed came down on the 7th Ray in the 7th Eon of light (7th day) after all the other evolutions had tried to evolve. They came as the 7th THRESHOLD RACE to repair the functions of the fallen evolutions on the earth. The 7th Ray is the Ray of the Great White Brotherhood – It is Light. Be prepared to receive the Angelic Messenger who brings you the anointing of color.” Raphael

*The ‘key’ to your collective ascension for your beautiful blue planet (Earth) is **truth**. Let us reiterate once again, “Truth cannot be learned only recognized.” The Galactic Super Wave theory is correct and you are directly connected to it and the ‘key’ that opens this portal is **truth**. On August 8, 2008 the Crystal Gateway opened up and will continue to be available to you for the next 9 years with an imprint of these energies available for the next 36 years. In reality, gateways once open; never close they are always available to us as an imprint.*

*“The Journey for Humanity is to become unified. The Great Deceiver; is your brain where conditioned mind patterns hold you hostage and in a state of illusion. The veil is awaiting your allowance to be lifted.” Truth or Dare....should be Truth or Fear it’s one or the other; Truth is love and Fear is the absence of love. It is fear that holds you hostage, and fear magnifies dust. Your dust world attracts the magnetic particles of limited light based on the density of your belief system called “fear.” There are **4 Major elements** that make up humanity. *Platonic Solids, * Building blocks of Matter, * Dust Particles, and *Unified Fields of Zero Point (no thing-the God particle the absence of matter (carbon).”*

PLANTOIC SOLIDS = Crystalline – silica within the brain (reticular formation) - the crystalline grid of creation (otherwise known as the 5 sacred geometries (triangle, square, hexagon, octagon and tetrahedron).

BULIDING BLOCKS OF MATTER = Carbon Based – your magnetic resonance (density that anchors you to earth). Biochemical balance of your biology

DUST PARTICLES –Photon Light Frequencies; sustaining your DNA structure. Cosmic dust comes in many forms, Dark matter, dark energy, gamma ray bursts, super novas, distant objects, and asteroids to name a few. Humanity’s dust particle comes from the gamma ray bursts known as cosmic dust or god particle (knowledge and emotion linked into your DNA structure).

UNIFIED FIELDS OF ZERO POINT – Gamma Ray burst, is either a wave or a particle within quantum physics; a pulsation of creation expanding and contracting upon itself. Wave is the no-thing and an initial particle from that wave is creation or otherwise known as the God-particle) – cosmic dust.

The Golden Mean particle (it is the ratio of love; the ideal esthetic form) IS humanity’s particle of dust that separates you from all other sentient beings. This gold dust (dusts of creation)

initiates the Sea of Crystal (which is all dimensions of the Milky Way). This particle unifies at zero point a wave or frequency (energy in motion) when released from the macro becomes the micro particle in formation. Your cosmic dust particle is encoded with photon-like light frequencies (sustaining your DNA structure) and contributes significantly to components of your astrophysical biology. These cosmic dust particles evolve cyclically; chemically, physically and dynamically inside of you and outside of you; in alignment with Mother Earth and the Cosmos themselves. In other words, you all shift simultaneously as one. What shifts your DNA is the awakening of these dust particles within your embodiments. It is governed by the law of LOVE, TRUTH and GRACE. The Golden Mean spiral represents the Christ consciousness grid of the human race that has been destroyed some 13,000 years ago; this event caused future generations to perceive reality through low consciousness levels thus creating fear and chaos.

On the third dimension the grid looks like two spirals (if you connect the dots of all the spiritual monuments on your planet you could link the beginning of the spirals in Egypt). On the fourth dimension the grid resembles a combination of two Platonic Solids – the dodecahedron and the icosahedrons. The golden mean spiral can be found in all organic structures which ensure symmetry within that of phi. Organic structures from human bones, to the seed pattern of a sunflower, to the spiral of a sea shell; the phi proportion is there, underlying all biological structure which is the geometrical blueprint for life itself, including nature and science. Phi is a constant value with no arithmetical solution. The decimals just keep on going into infinity without every repeating itself. Phi is calculated at 1.6180339+

The covenant of light is humanities covenant of “True Israel” which is also known as the “Children of Light.” They are the children who express different light emanations, yet work with the 7th Ray of creation. For clarity purposes, when you hear The People of Israel, you are all thinking geographically and aligning races to Israel. This is a misunderstanding. Israel means, “he who contends with god until victory.” Ascension is absolute and is the program of LIGHT commissioned by the Father who enables every son/daughter of God to attain the “anointing” Christ body to serve creation with the infinite ways of love and light.

Under the 7th Ray Leadership, the RACE of ISRAEL was to go forth to demonstrate the unity of the Father Mother elements of physical and spiritual rebirth. You MUST process the old patterns (programs) to be brought to a point of completion (current systems that exist must collapse and be rebuilt; yourselves included). Then you move beyond the planetary evolution into the Star Kingdoms of infinite possibilities. The land of Israel is the land of consciousness of Light (Sea of Crystal) – your Milky Way!). The program Israel and a NEW program Victory will signal the gathering of the tribes of the spiritual Israel, to take place in the sacred land of the WEST, which is the region of the original grids used by the Ascended Masters, Christ Consciousness, and Buddha Mind and upon this new grid a new crystallization will be created as the cycles of the East West coming to receive that living light of Christ and the Brotherhood of Light. Reigning upon the planet and initiating once again, The Covenant of Light; your true inheritance.

Your space brothers are looking to lift the veil in your coming month to expose themselves within the density of your 3rd dimension and in order to do this we are asking that you all search your hearts and if you accept this gift with love and gratitude it shall come to pass. Great streaks of Light (Mother Ship) will be seen in the sky over the chambers of the Earth where the righteous will be gathered. These chambers will be located along the ancient grids used for the Brotherhood and will appear as island clusters of Light in the oceans and as community centers

of Light upon the land. These communities will be a beacon of Light and a signal of hope to all mankind during the transition of your planet. Man will suddenly see all twelve faces of his consciousness time zone spiral before him. And he will understand how he is a microcosm which will ascend into the Father universe through the Living Light. Your space brethren come in peace and have no intension of inducing fear, therefore it is imperative that fear not be your emotional outcome.

October energies hold high probably of much change and exposure of your current structures based on corruption greed and fear will continue to be exposed and collapse within the landfill they were built on. The Light Workers have increased their beacons and Love is illuminating, blocks of darkness shall be transmuted for they cannot sustain themselves in the 5th dimension. A new earth is being birthed from a unified perspective of togetherness and love as you continue to awaken your dust world through the covenant of light.

And so it is.....
