## *Initiating the Cosmic Truth Your Agreement, Your Mission, The Objective and Star Brethren Assistance*

*Truth reverses the ultimate illusion ....*

*Your remembrance, should you choose to AWAKEN ... I Am not a thing of time and circumstance – I Am Spirit, pure, eternal, breathless, deathless and changeless. I Am Patient for I Am all time and wise for I contain the knowledge of all things. I Am successful – for I need only think to achieve. All things are myself and I Am all things. Ego is a changing thing mirroring the seasons and the tides – a thing to be born and grow and die.*

*I have come to represent S/He that has sent me, for I need not worry about what to say or do, for S/He who sent me will tell me what to do and what to say.*

*~ The Prayer from ACIM ~*

*The ultimate illusion is FEAR (Feeding Ego Allowing Resistance) and it is in your greatest interest to remember you are the **BEST** sentient beings created. The **BEST** is Benevolent Energy Sustained in Truth. The time has come to honor your **agreement**... it is your decision to walk beyond this veil of illusion and return to love. Love is the ultimate TRUTH at the heart of creation. You have entered into the 7<sup>th</sup> Golden Age; you are the elders of the Golden Children, thereby being the Original Golden Children. Golden Children carry the 'key' – the golden key of timeless treasures which 'moves' through you (it comes from the heart center) and creates attunement and harmony with all your relations – you are teachers of truth and lovers of light. You are a Divine Golden Key, a doorway, a messenger, a way shower.*

*The vision of the 3<sup>rd</sup> and 4<sup>th</sup> dimension is coming to completion. In the various timelines of your 4<sup>th</sup> dimensional probabilities your visions are unifying with truth and everything that does not support love will begin to fall away but in order for it to do so you must return to love. Your **agreement** of purpose is to be the Key to open the doorways to perceptions so limitations disappear and new realities are created in harmonious union (fulfilling the prophesy of union). Way Showers are older souls with a gift of experience and knowledge of being born awakened. You have remembered the truth of existence and have intrinsic knowledge, belief and intuition with confidence and talent to lead the way. Remember that leadership has nothing to do with leading, rather, leadership is all about confidence. Your life experiences helped you to awaken to your blue print. As an older soul you are mature and aware and you are in harmonic vibrations to create new universes. Allowance is the key!*

*The Way Showers **Mission** is to bring into alignment that which is lost and that which is unconnected with the Central Source. Your **purpose** is to be in constant communication (communion – coming into union) and harmony (harming no one, especially yourself) and to awaken to your true self. Your agreed mission is to be teachers and healers in lower dimensions acting as the central agencies which open doors for those seeking pathways to truth, experience and higher dimensions. You are held in love and light by the universe and the golden light matrix supports you on all levels. Your conditioned mind patterns are holding you hostage with your habitual stream of thinking. The psyche gives rise to the physical and carries time – spirit is*

*timeless and spirits only job is the ego's capacity to touch the soul and you can't get to the soul from your intellect. Your questions regarding awakening are skewed inasmuch as you're holding images in your grey matter (thought patterns) of perceived awakened beings. Awakening is not an image; it is consciousness without thought or form. It is authentic awareness of yourself expanding with a stillness of knowing. We have shared with you that Knowing About Something is about FORM (it is information that has been labeled to help you identify it again and again and again), Knowing is formless – it is pure consciousness. Allow the concept of awakening rather than thinking about it or forcing it to have an image. If it has an image, ego is trying to add awakening to your illusion dictionary as its most prized position; thereby making it more important and valued and another unconscious game the ego plays with your intellect. It's not complicated beloved beings of love and light; it is simple. As you observe yourself having a dream (sleep or awake) who's the witness or dreamer watching? That is your soulfulness that is your awakened one – it is authentic living and being. Your dramatic images will merely keep you on the treadmill of slumber always seeking to become something you already are! If you allow your awareness to surface without attachment to your experience, Grace has met you on your awakened path and then your habitual thinking will become the servant to your awareness. Now that's something to contemplate over.*

*When you're in your ego it is a social induced hallucination whereas, love is the ultimate truth; evil is the projection of your collective shadow veiled behind shame, fear, guilt which lives in 'secrecy' within those of you that don't want to be revealed and usually surfaces when you're depressed. Your programs of the past (fear, worry, blame, etc) have held you hostage for millennia where you were quarantined based on your belief system. Knowing how to trust and surrender will bring about your ascension as you give up demands for control. In your renewal your life regains vitality and springs forth transformed vigor and expression. Enjoy the journey as you release yourself from your addictions to business, money, work, education, image, achievements, associations, desires and success. Whatever is calling you loudly to be heard is your sacred journey, remember to be humble and self assured not arrogant as you step over others in a rush to be where you are. Keep moving forward, it is not your job to rescue others, each individual has their own sacred path, all must find their own way.*

*The blue star of **Alcoyne** rises forth in the east to illuminate and renew your resurrection (awakening). The Angel of the Golden Son walks with you (our beloved Gabriel is the door opener – the doorway is the heart and he works in conjunction with Chamuel – who teaches love); it is time to champion the Age of Light. The **Aquarius** dispositions are set by keepers of time; they come from the **Pleiades** to say to you, "you are home." **Alcoyne** has come to restore the plane of Peace through your world and the many parallel worlds. Your breath is the 'key' to your salvation. Breath allows space within your body suit to expand and transform the density of fear and resistance into light. Your **Star Brethren** have arrived; you are what you have been waiting for – you are awakening to your true self and **YOU ARE the Star Brethren!** You're awakening to your truth in this body suit and calling your central selves to you from other star ships. **Sirius** is the dog star – Washington D.C. was set up under this Stargate and in 2004 it was reactivated with love energy pouring through and now your leadership within your Nations Capital are setting up for Truth to be revealed. As Way Showers you bring in manifestation of harmony and balance. Harmonic attunements and alignments are gifted to you from your **Arcturian** selves providing you with stability. Harmony depends on steady character of rhythmic pulsations producing the ground work for which clear melodic progressive patterns can be created. The **Arcturian** alignment is part of the harmonic process of bringing forth the point of connections between the Milkyway (Central Sun of Alcoyne) and **Andromedian** galaxies.*

*The Lords of Light through the Council of Nine coordinate and synchronize through the central field of energy in **Orion**. The major central control pyramid of Light in 'heavens gates' must go through **Orion** in your local universe and within the ethereal universe of **Sagittarius** through the gateway of the **Pleiades**. Additionally the heavenly universes synchronize in triad crystalline metamorphous with **Rigel** and **Betelgeuse** activations. Metatron returns your golden key to give entrance into the presence of returning to your divine blueprint and authentic frequency.*

*The Central Sun of the Milkyway is radiating higher light to the outer reaches (5 senses) to illuminate the inner reaches (7 senses) within all bodies in synchronicity. The pineal was activated to decode and visualize the hyper spherical creative intelligence that is sending high energy rays of super light from the heart of the galaxy. The effect of the projection of light is to trigger the inner voice and visions so the awakened ones can see the biological strands of integrated electromagnetism operate as fundamental creative flow expressing design, cohesive and functional intension of multidimensional expansion. The mind opens to see, hear and understand that the DNA solves a piece of the puzzle in biological light without being aware of the cosmological questions.*

*Electromagnetism through science brought forth the awareness of the mysteries of vibration without knowing the ontological purposes. From the substance of the water humanity has the intuitive and subconscious experience of love as the essence without translating the feelings of this depth to correspond to the oneness of bliss. Quantum energy dissolves material reality into relativity wave pulsations of life without seeing the higher intelligence. You are awakening to the inner intelligence which is your inner teacher. You're beginning to understand the world awakes to make the correspondences and become enlightened. Now you're closer to opening the door into the new dimension of your higher mind.*

*The **Andromedian** enlightenment promises a compassionate arrival of higher intelligence which brings forth the gift of grace to the ascending souls. In alignment with the infinite cosmic realms, life accepts the design with enthusiasm for creation and the wisdoms for unconditional love thereby you are awakened to Oneness and know thy self. Join, serve, teach and show the way as you have been shown – share the joy beloved beings of love and light; your time has come.*

*The **objective** of this lifetime is to transcend thought and to awaken to your truth (love). Your physical body is a dream machine and the reptilian brain is breaking down; it feeds on negative energy that is its food source. Only you can stop the madness ~ Light IS prevailing. The more things fall apart the more you are waking up! The doorway to your truth is ONLY through the heart center of your physical body – this is the heart mind, the mind of divinity (God) which is your golden key to the passage to Cosmic Truth. Unconditional love is the core of truth - truth cannot be learned only recognized (this is the awakening). Cosmic Laws and Truth cannot be reached at a personal (ego) level it is imperative at this juncture in your time space continuum that you engage your internal compass (7 senses within) to align with the Great Central Sun, termed TULA (the ancient mother); it is the source and center of the cosmos. It is the Point of integration of matter-antimatter fusion within the divine cosmic hologram and the metatronic origin of all physical-spiritual creation. .... and so it is.....*

*Note: the questions you asked are on the CD.*
